REGISTER NOW!

The international Conference CAETS 2022 “Breakthrough Technologies for Healthcare” is organized by The National Academy of Technologies of France.

It will be held on September 26-29 in Versailles, near Paris.

The main Conference (**27 & 28 of September**) is designed around the **6 sessions**:

- **Emerging technologies for innovative treatments and drug discovery**,
coordinated by Patrick Couvreur
- **Information and communication technologies for biology and health**,
coordinated by Erol Gelenbe
- **Disruptive technologies and global R&D Trends**, *coordinated by Denis Le Bihan et André Syrota*
- **Virtual Brain**, *coordinated by André Syrota*
- **Technologies for repair-repairing the human body**, *coordinated by Bruno Jarry*
- **Ethics and societal impacts of technological**, *coordinated by Claudie Haigneré*

We would be very happy to see you participate in this event. We assume the possibility to organise the Conference as a physical event. Nevertheless, the National Academy of Technologies of France together with CAETS will closely monitor the pandemic situation during the coming weeks

The planning of technical visits of the Chateau de Versailles is now available on the website CAETS 2022 event, **[click here](#)** to consult it!

The number of places for these visits is limited,
so do not wait any longer to register.
